

## Erratum

- **The February 2009 *GSA Today*** (v. 19, no. 2, p. 14–15) included a Rock Stars article by K.R. Aalto about Israel Cook Russell. An extended article on Russell, also written by Aalto, was published in *Rocky Mountain Geology* (v. 43, no. 2, p. 201–214) in their Fall 2008 issue. *GSA Today* Rock Stars articles are chosen by GSA's History of Geology Division for their quality and interest and are reviewed prior to publication. *GSA Today* was not aware of the parallel submission, and it was not the intention of Aalto or the History of Geology Division to disregard the prior publication in *Rocky Mountain Geology*. Acknowledgment of the earlier publication should have been made as a reference in the Rock Stars article. *GSA Today* apologizes for this oversight.

## Call for Papers:

*GSA Today's* "Groundwork" series calls for articles that lay the groundwork for furthering the influence of earth science on policy, planning, education, funding, and more. Articles can include in-depth geoscience commentary, observations on policy news and issues, and analysis of hot topics in the earth sciences.

In order to ensure the clarity and quality of the writing, and to encourage readers to engage and seek more information, Groundwork articles must be no longer than two print pages. This is equivalent to about 1,400 words with two small figures or about 1,600 words with one small figure. The Groundwork series accepts up to two color figures at no charge to the author(s).

Groundwork articles are submitted through *GSA Today's* online system and *GSA Today's* science editors pass them through a rigorous peer review before acceptance and publication.

To learn more or to submit your Groundwork article, go to [www.geosociety.org/pubs/gsatguid.htm](http://www.geosociety.org/pubs/gsatguid.htm).

GSA news and information doesn't stop with *GSA Today* ...

## GSA E-News Center

**GSA's E-News Center** includes options for you to stay informed about the information YOU want and need. Pick and choose only those news items you'd like to receive!

1. Go to <http://rock.geosociety.org/Enews/>;
2. Select the categories you prefer;
3. Enter your e-mail address;
4. Click "Subscribe."

You will receive an e-mail to which you must reply in order to confirm your subscription—then get ready to receive **GSA E-news!**

You can also **unsubscribe** to any GSA e-news by going to the E-News Web page.
