

GSA Geophysics Division Newsletter: July 2015

Dear Colleagues:

The 2015 annual GSA Meeting will be held from November 1-4, 2015, in Baltimore, Maryland. We would like to remind you of some important deadlines and opportunities.

- The abstract deadline for the annual meeting is August 11, 2015. Abstracts can be submitted at: <http://community.geosociety.org/gsa2015/science-careers/sessions>.
- Please consider submitting an abstract to the Geophysics-sponsored Woollard technical session “T61. Geophysical Solutions to Geological Problems: Current Research Results and the Annual George P. Woollard Award Presentation.”
- During the Woollard session, we will honor this year’s award recipient, Dr. David Evans.
- The Geophysics Division social and business meeting will be held immediately after the Woollard session. Our student award recipients, Mr. Henok Kiflu, Mr. Brad Sparks, and Ms. Abigail Maxwell, will be recognized during the meeting.
- There are also many other interesting sessions being sponsored and co-sponsored by the Geophysics Division, including:
 - T4. Bridging Two Continents: Diamonds, Zircons and Native Elements in the Mantle: New Discoveries and Models on the Properties and Petrogenesis of Oceanic Mantle Lithosphere
 - T59. Advances in Crustal Geophysics and Tectonics: In Honor of G.R. Keller
 - T60. An Updated View on Caribbean Tectonics
 - T61. Geophysical Solutions to Geological Problems: Current Research Results and the Annual George P. Woollard Award Presentation
 - T62. Integrating Geophysical Characterization of the Near Surface for Carbon Cycle Studies in Peatland Soils
 - T63. Intraplate Earthquakes, Seismotectonics, and Geodynamics in Eastern and Central North America
 - T64. Rotations, Oroclinal Bending; Variscan-Alleghenian Nondipoles; Diagenetic Enigmatic Remagnetizations; Vignettes of Orogenies and Oceans: A Celebration of Rob Van der Voo's Career
 - T70. Digital Technology in Real and Virtual Geoscience Experiences (Posters)
 - T122. Remote Sensing and Geophysical Imaging in Karst

- T173. Impact Cratering on Earth and in the Solar System
 - T175. Oceans, Fire, and Ice of the Outer Solar System
 - T206. Constraints on Fault Constitutive Behavior from Nature, Lab, and Theory
 - T212. Deconstructing Rodinia: Neoproterozoic-Cambrian Geologic Evolution of Laurentia's Margins
 - T213. Integrating Perspectives on the Formation, Evolution, and Destruction of Continental Crust: From 0 to 4600 Ma
 - T217. Rift-Drift, Seafloor Spreading, and Subduction Zone Tectonics of Collisional Orogens: Comparative Analysis of the Circum-Mediterranean and Appalachian-Caledonian Orogenic Belts
 - GSA Special Nepal (Gorka) Earthquake Session
- Dr. Samantha Hansen will be stepping down as division chair, having reached the end of her term, and the new division board members will be introduced at the annual meeting. Information to vote for these officer positions will be sent out soon!

Best regards,

GSA Geophysics Management Board

Samantha Hansen, Chair

Nicholas Schmerr, Vice Chair

Richard Saltus, Secretary-Treasurer

Audrey Huerta, Past Chair
