

Contents

1. Paleozoic and Mesozoic tectonic events west of the Waterbury Dome: Results of new mapping in the western Connecticut Highlands	1
William C. Burton and William J. Devlin	
2. Geology of Central Park, Manhattan, New York City, USA: New geochemical insights	21
Steven J. Jaret, Nicholas D. Tailby, Keiji G. Hammond, E. Troy Rasbury, Kathleen Wooton, Denton S. Ebel, E. DiPadova, Riley Smith, Victoria Yuan, Noa Jaffe, Lisa M. Smith, and Lynsey Spaeth	
3. An Upper Cretaceous paleodrainage system on the Coastal Plain unconformity of Alabama-Georgia	35
Clinton Barineau and Diana Ortega-Ariza	
4. Barrier islands of the central Georgia coast: Formation, function, and future	61
Robin L. McLachlan, James B. Deemy, Kimberly K. Takagi, and Damon P. Gannon	
5. Hypogenic karst of the Great Basin	77
Louise D. Hose, Harvey R. DuChene, Daniel Jones, Gretchen M. Baker, Zoë Havlena, Donald Sweetkind, and Doug Powell	
6. Geohydrology of the four largest spring systems in the Ozarks of Missouri and Arkansas, USA	115
Cecil Boswell and James W. Duley	
7. Tectonism and metamorphism along a southern Appalachian transect across the Blue Ridge and Piedmont, USA	143
Harold Stowell, Elizabeth Bollen, Matthew P. McKay, J. Ryan Thigpen, Hannah F. Dickson, Jeffrey R. Madden, Cobi Fiechtner, and Adelle Ionescu	
8. Ordovician and Mississippian stratigraphy in southwestern Missouri, USA	181
Charles W. Rovey, Damon J. Bassett, and Matthew P. McKay	
9. The blast, the quake, and the bomb: A guide to high-energy events in western Nevada, USA	201
John N. Louie and Philipp Ruprecht	
10. Exploring the emplacement of Cretaceous arc granites and dextral shear zones in northwestern Nevada, USA, using the StraboSpot data system	221
S.F. Trevino, B. Tikoff, N. Van Buer, S.J. Wyld, and H. McLachlan	
11. Petrology and volcanology of the Mesoproterozoic igneous rocks of the Saint Francois Mountains terrane, southeast Missouri, USA	253
Gary S. Michelfelder
