| <i>Foreword</i> | v |
| Adam M. Booth and Anita L. Grunder | |
| 1. Developing landslide chronologies using landslide-dammed lakes in the Oregon Coast Range | 1 |
| Logan R. Wetherell, William T. Struble, and Sean R. LaHusen | |
| 2. Deep-water deposits of the Eocene Tyee Formation, Oregon | 19 |
| Gwladys T. Gaillot, Michael L. Sweet, and Manasij Santra | |
| 3. The Mount Hood fault zone, active faulting at the crest of the dynamic Cascade Range, north-central Oregon, USA | 49 |
| Ian P. Madin, Ashley R. Streig, and Scott E.K. Bennett | |
| 4. Middle Jurassic to Early Cretaceous tectonic evolution of the western Klamath Mountains and outboard Franciscan assemblages, northern California–southern Oregon, USA | 73 |
| Alan D. Chapman, Doug Yule, William Schmidt, and Todd LaMaskin | |
| 5. Arc versus river—The geology of the Columbia River Gorge | 131 |
| Jim E. O’Connor, Ray E. Wells, Scott E.K. Bennett, Charles M. Cannon, Lydia M. Staisch, James L. Anderson, Anthony F. Pivarunas, Gabriel W. Gordon, Richard J. Blakely, Mark E. Stelten, and Russell C. Evarts | |
| 6. Tectonics and paleogeography of a post-accretionary forearc basin, Coos Bay area, SW Oregon, USA | 187 |
| John M. Armentrout | |
| 7. Upper Grand Coulee: New views of a channeled scabland megafloods enigma | 245 |
| Richard B. Waitt, Brian F. Atwater, Karin Lehnigk, Isaac J. Larsen, Bruce N. Bjornstad, Michelle A. Hanson, and Jim E. O’Connor | |
| 8. Flood basalts, rhyolites, and subsequent volcanism of the Columbia River magmatic province in eastern Oregon, USA | 301 |
| Emily B. Cahoon, Martin J. Streck, and Mark Ferns | |
