<i>Foreword</i>	v
Nicholas J. Van Buer and Joshua J. Schwartz	
<i>Acknowledgments</i>	vii
1. <i>Island of Hawai‘i eruptions 2018–present: Profound landscape and human impacts</i>	1
Steven P. Lundblad, Elisabeth Gallant, Michael Zoeller, Kendra J. Lynn, and Ashton Flinders	
2. <i>How geology and paleontology help build the magic of the Disneyland Resort (Anaheim, California, USA)</i>	27
Daniel M. Sturmer, Garrett S. Vice, Stuart Sumida, and Michelle Mary	
3. <i>Debris flows and sediment transport at Yucaipa Ridge and impacts to Oak Glen and Forest Falls area, southern California, following the 2020 El Dorado and Apple Fires</i>	45
Brian J. Swanson, Donald N. Lindsay, Kerry Cato, Roman A. DiBiase, and Alexander B. Neely	
4. <i>Exploration of North American Quaternary geology at the La Brea Tar Pits (California, USA)</i>	75
Rebecca A. Taormina and Laura Murphy	
5. <i>Geology, coastal geomorphology, and soils of eastern Santa Cruz Island (Limuw), Channel Islands National Park, California, USA</i>	83
Daniel R. Muhs, R. Randall Schumann, Scott A. Minor, and Lindsey T. Groves	
6. <i>Volcanism and tectonics of young basaltic fields in the eastern California shear zone, California, USA</i>	125
David C. Buesch and David M. Miller	
7. <i>Cretaceous through Neogene tectonostratigraphic evolution of the southern California margin, USA</i>	159
Raymond V. Ingersoll, David S. Diamond, and Peter Bird	
8. <i>New models for fracture development in magmatic systems, Tuolumne Intrusive Suite, California, USA</i>	179
Basil Tikoff, Kyrsten L. Johnston, Tim Shipley, John Bartley, Richard Becker, and Paul Riley
