<i>Dedication</i>	v
Katharine Lee Avary, Kenneth O. Hasson, and Richard J. Diecchio	
<i>Acknowledgments</i>	xi
Katharine Lee Avary, Kenneth O. Hasson, and Richard J. Diecchio	
Stratigraphy	
1. Upper Ordovician Juniata Formation, Central Appalachian Basin, USA: A record of Milankovitch-forced eustatic oscillations originating from glaciations in polar Gondwana	1
Linda A. Hinnov and Richard J. Diecchio	
2. Outlier of Trenton Group limestones (Ordovician) and Clinch Sandstone (Silurian) and associated unconformities in the Tellico-Sevier syncline, Blount County, Tennessee, identified on the basis of conodont biostratigraphy	19
John T. Haynes, Stephen A. Leslie, Achim D. Herrmann, and Nathan T. Long	
3. Arc-to-craton: Devonian air-fall tephtras in the eastern United States	35
C.A. Ver Straeten, D.J. Over, and G.C. Baird	
4. Using Fischer plots to identify third-order sequences in the Middle Devonian, mixed carbonate-siliciclastic strata of West Virginia	55
Thomas C. Wynn and Jennifer M. Bloom	
5. Late Devonian limestones, diamictites, and coeval black shales from the Appalachian Basin: Discerning relationships and implications for Late Devonian Appalachian history and glacially driven seafloor anoxia	67
Frank R. Etensohn, Geoff Clayton, R. Thomas Lierman, Charles E. Mason, Federico F. Krause, Christopher DeBuhr, Thomas B. Brackman, Eric D. Anderson, Allen J. Dennis, and Jack C. Pashin	
6. Lithostratigraphy of the Early Mississippian Grainger Formation and related strata in northeastern Tennessee	89
Kenneth O. Hasson	
7. Middle Mississippian (late Osagean; early Viséan) Floyds Knob glauconite interval, Borden and Fort Payne Formations, Appalachian and Illinois Basins, Kentucky, USA: Synergistic influence of tectonics, paleoclimate, and paleogeography	115
Devi B.P. Udgate and Frank R. Etensohn	
8. Middle Eocene bentonite in the North Carolina Coastal Plain and its relationship to the volcanic swarm in western Virginia	151
W. Burleigh Harris and Paul A. Thayer	

Paleontology

- 9. *Quantitative paleoecology of marine faunas in the lower Hamilton Group (Middle Devonian, central New York): Significance for probing models of long-term community stability* 161**
Cathryn R. Newton, Willis B. Newman, and James C. Brower
- 10. *Ammonoids from the Tully Formation and Harrell Shale in Pennsylvania: Markers of sea-level highstands in the Middle to Late Devonian transition, Appalachian foreland basin, eastern North America* 197**
William T. Kirchgasser, Gordon C. Baird, and Carlton E. Brett
- 11. *Late Devonian fossils and position of the Frasnian-Famennian boundary in the Foreknobs Formation of Virginia and West Virginia* 225**
Thomas J. Rossbach

Structural Geology

- 12. *Three-dimensional model of a mushwad and its implications for the evolution of an Appalachian subrecess in northwestern Georgia* 237**
Brian S. Cook and William A. Thomas
