TABLE OF CONTENTS

Abstract 1
Introduction 1
- Problems 2
- Nature of the Transect 4

Southern Appalachians: E5 Transect Western Portion 4
Tectonic Framework of the Southern and Central Appalachians 4
- Concepts and Broad Framework 4
- Stable Interior and Foreland Fold-thrust Belt 9
- Blue Ridge 12
  - Western Blue Ridge 12
    - Stratigraphy 12
    - Structure 16
  - Eastern Blue Ridge 18
    - Stratigraphy 19
      - Basement Rocks 19
        - Tallulah Falls Formation 19
        - Coweeta Group 20
        - Rocks of the Shope Fork and Soque River Thrust Sheets 20
        - Rocks of the Dahlonega Gold Belt 21
      - Igneous Rocks 21
        - Paleozoic Granitoids 21
          - Whiteside Granite 21
          - Rabun Granite 22
          - Persimmon Creek Gneiss 22
          - Pegmatite and Trondhjemite Dikes 22
        - Mafic and Ultramafic Rocks 22
          - Lake Chatuge Mafic-Ultramafic Complex 23
          - *Complexes in the Shope Fork Thrust Sheet* 23
          - Laurel Creek Complex 23
          - Mafic Rocks of the Dahlonega Gold Belt 23
        - Mesozoic Diabase 24
      - Structure 24
        - Hayesville Fault 24
        - Tallulah Falls Dome 25
  - Metamorphism 25
- Piedmont 26
  - Chauga Belt 26
    - Introduction 26
    - Chauga River Formation 26
    - Carbonate Slices 27
    - Poor Mountain Formation 27
    - Henderson Gneiss 31
  - Inner Piedmont 31
    - Amphibolite 31
    - Biotite Gneiss 32
    - Pelitic Schist 32
    - Quartzite 32
    - Alto Allochthon 32
  - Igneous Rocks 32
    - Granitoid Gneiss 32
    - Ultramafic Rocks 32
    - Mesozoic Diabase 32
- Inner Piedmont Structure 33
  - Chauga Belt—Brevard Fault Zone 33
  - Chauga Belt and Inner Piedmont Structure 33
- Carolina Terrane 34
  - Stratigraphy 34
  - Metamorphism 34
  - Structure 34
  - Central and Eastern Piedmont Alleghanian Faults 34
  - Kiokee Belt and Adjacent Lithotectonic Belts, South Carolina-Georgia 36

Coastal Plain Stratigraphy and Structure Along E5 38
- E5 TransectGeologic Map 38
- Continent-Ocean Transect E5 Cross Section 40
  - Stratigraphy 40
  - Structure and Tectonics 41

Offshore Region of Transect E5 42
- Basement Geology (Beneath the Postrift Unconformity) 42
- Geology of the Sedimentary Section (Above the Postrift Unconformity) 43
