Contents

Preface ................................................................. vii

Foreword ............................................................... ix

EASTERN CANADA

1. Review of late-glacial and Holocene events in the Champlain and Goldthwait Seas areas and arrival of man in eastern Canada ........................................ 1
   Pierre LaSalle and Claude Chapdelaine

2. Geoarchaeology of the Cummins site on the beach of proglacial Lake Minong, Lake Superior Basin, Canada ..................................................... 21
   P. J. Julig, J. H. McAndrews, and William C. Mahaney

3. The early occupations of the Glacial Lake Agassiz basin in Manitoba; 11,500 to 7,700 B.P. ................................................................. 51
   A. P. Buchner and L. F. Pettipas

WESTERN CANADA

4. Archaeological geology in western Canada; Techniques, approaches, and integrative themes ................................................................. 61
   Michael Clayton Wilson

5. Archaeological geology of sites in western and northwestern Canada ..................................................... 87
   Peter T. Bobrowsky, Norm R. Catto, Jack W. Brink,
   Brian E. Spurling, Terry H. Gibson, and
   Nathaniel W. Rutter

6. Geoarchaeological studies of the Beaver River Sandstone, northeastern Alberta ..................................................... 123
   Mark M. Fenton and John W. Ives
Contents

EASTERN UNITED STATES

7. Environmental factors affecting prehistoric shellfish utilization; Grape Island, Boston Harbor, Massachusetts .......................... 137
J. Richard Jones and John J. Fisher

8. Prospecting for submerged archaeological sites on the continental shelf; Southern mid-Atlantic Bight of North America ........................................ 147
William H. Hoyt, John C. Kraft, and Michael J. Chrzastowski

Curtis E. Larsen and Joseph Schuldenrein

10. Point bar geoarchaeology in the Upper Coastal Plain of the Savannah River Valley, South Carolina; A case study .................. 183
Mark J. Brooks and Kenneth E. Sassaman

11. A soil-geomorphic analysis of the midden deposits at the Aztec site, Wisconsin .......................................................... 199
Michael F. Kolb, Norman P. Lasca, and Lynne G. Goldstein

12. The mineralogy of Wyandotte Cave aragonite, Indiana, and its archaeological significance ........................................ 219

13. Evolution of sandstone rockshelters in eastern North America; A geoarchaeological perspective ............................ 231
Jack Donahue and James M. Adovasio

CENTRAL UNITED STATES

14. Archaeological geology of the Southern Plains ........................................ 253
C. Reid Ferring

15. Geoarchaeology of the Kansas River basin, central Great Plains ................................................................. 267
William C. Johnson and Brad Logan

16. The archaeological geology of the Calico site, Mojave Desert, California ................................................ 301
Roy J. Shlemon and Fred E. Budinger, Jr.

17. Late Quaternary alluvial stratigraphy and early Holocene archaeology of Whitewater Draw, Arizona .................. 315
Michael R. Waters

18. Holocene landscapes of the San Juan Basin, New Mexico; Geomorphic, climatic, and cultural dynamics .................... 323
Stephen A. Hall
