

# CONTENTS

## Chapter

1. Introduction	1
2. Geographic and geological exploration	5
3. Geomorphic regions	27
4. Tectonic framework	57
5. Geophysical characteristics	67
6. Precambrian successions in the northernmost part of the Canadian Shield	101
7. Cambrian to Silurian basin development and sedimentation, North Greenland	109
8. Cambrian to early Devonian basin development, sedimentation, and volcanism, Arctic Islands	163
9. The Proterozoic to Late Silurian record of Pearya	239
10. Middle-Upper Devonian clastic wedge of the Arctic Islands	261
11. Devonian - Early Carboniferous deformation and metamorphism, North Greenland	281
12. Silurian - Early Carboniferous deformational phases and associated metamorphism and plutonism, Arctic Islands	293
13. Carboniferous and Permian history of the Sverdrup Basin, Arctic Islands	343
14. Mesozoic history of the Arctic Islands	369
15. Late Cretaceous and Tertiary basin development and sedimentation, Arctic Islands	435
16. Late Cretaceous - Early Tertiary deformation, North Greenland	459
17. Late Cretaceous - Early Tertiary deformation, Arctic Islands	467
18. Middle and Late Tertiary tectonic and physiographic developments	491
19. The Quaternary record	497
20. Resources	515
21. Summary and remaining problems	545
Index	555
