

Contents

<i>Preface</i>	xi
<i>Foreword</i>	xiii

INTRODUCTION

<i>1. Perspectives on the geology of the North Atlantic Ocean</i>	1
Brian E. Tucholke and Peter R. Vogt	
<i>2. Imaging the ocean floor: History and state of the art</i>	19
Peter R. Vogt and Brian E. Tucholke	
<i>3. A Jurassic to recent chronology</i>	45
Dennis V. Kent and Felix M. Gradstein	

PRESENT ACCRETION AXIS

<i>4. The crest of the Mid-Atlantic Ridge: Models for crustal generation processes and tectonics</i>	51
Ken C. Macdonald	
<i>5. Subaerial volcanism in the western North Atlantic</i>	69
Kristján Saemundsson	
<i>6. Model of crustal formation in Iceland, and application to submarine mid-ocean ridges</i>	87
Gudmundur Pálmason	
<i>7. Seismicity along the eastern margin of the North Atlantic Plate</i>	99
Páll Einarsson	
<i>8. "Zero-age" variations in the composition of abyssal volcanic rocks along the axial zone of the Mid-Atlantic Ridge</i>	117
William G. Melson and Tim O'Hearn	

9. Geochemical and isotopic variation along the Mid-Atlantic Ridge axis from 79°N to 0°N	137
Jean-Guy Schilling	
10. The geology of North Atlantic transform plate boundaries and their aseismic extensions	157
Paul J. Fox and David G. Gallo	
11. Hydrothermal activity in the North Atlantic	173
J. M. Edmond	
12. The present plate boundary configuration	189
Peter R. Vogt	

REGIONAL GEOLOGY AND GEOPHYSICS

13. Gravity anomalies in the western North Atlantic Ocean	205
Philip D. Rabinowitz and Woo-Yeol Jung	
14. Geoid undulations mapped by spaceborne radar altimetry	215
Peter R. Vogt	
15. Magnetic anomalies and crustal magnetization	229
Peter R. Vogt	
16. The relationship between depth and age and heat flow and age in the western North Atlantic	257
John G. Sclater and Lewellyn Wixon	
17. Petrologic and geochemical evolution of pre-1 Ma western North Atlantic lithosphere	271
W. B. Bryan and F. A. Frey	
18. Mid-plate stress, deformation, and seismicity	297
Mary Lou Zoback, Stuart P. Nishenko, Randall M. Richardson, Henry S. Hasegawa, and Mark D. Zoback	
19. Seismic structure of the ocean crust	313
G. M. Purdy and John Ewing	
20. Structure of basement and distribution of sediments in the western North Atlantic Ocean	331
Brian E. Tucholke	
21. Subduction of Atlantic lithosphere beneath the Caribbean	341
G. K. Westbrook and W. R. McCann	

PLATE TECTONIC EVOLUTION

22. Plate kinematics of the central Atlantic	351
Kim D. Klitgord and Hans Schouten	
23. Plate kinematics of the North Atlantic	379
S. P. Srivastava and C. R. Tapscott	

24. *Plate kinematics during the last 20 m.y. and the problem of "present" motions* 405
Peter R. Vogt

SURFICIAL SEDIMENTATION

25. *Surficial sedimentary processes revealed by echo-character mapping in the western North Atlantic Ocean* 427
E. P. Laine, J. E. Damuth, and Robert Jacobi
26. *Turbidite sedimentation in the northwestern Atlantic Ocean basin* 437
Orrin H. Pilkey and William J. Cleary
27. *Deep current-controlled sedimentation in the western North Atlantic* 451
I. N. McCave and Brian E. Tucholke
28. *Oceanic particles and pelagic sedimentation in the western North Atlantic Ocean* 469
Susumu Honjo
29. *Mass wasting in the western North Atlantic* 479
Robert M. Embley and Robert Jacobi
30. *Seabed geotechnical properties and seafloor utilization* 491
Armand J. Silva and James S. Booth

BIOFACIES

31. *Northwestern Atlantic Mesozoic biostratigraphy* 507
Felix M. Gradstein
32. *Paleogene biofacies of the western North Atlantic Ocean* 527
Isabella Premoli-Silva and Anne Boersma
33. *Neogene marine microfossil biofacies of the western North Atlantic* 547
C. Wylie Poag and Kenneth G. Miller
34. *North Atlantic Mesozoic and Cenozoic paleobiogeography* 565
W. A. Berggren and R. K. Olsson

PALEOCEANOGRAPHY

35. *Paleogeographic and paleobathymetric evolution of the North Atlantic Ocean* 589
Brian E. Tucholke and Floyd W. McCoy
36. *Paleoceanography and evolution of the North Atlantic Ocean basin during the Jurassic* 603
Lubomir F. Jansa

37. Cretaceous paleoceanography of the western North Atlantic Ocean	617
Michael A. Arthur and Walter E. Dean	
38. Tertiary paleoceanography of the western North Atlantic Ocean	631
Brian E. Tucholke and Gregory S. Mountain	

RESOURCES AND LAW OF THE SEA

39. Space systems as marine geologic sensors	651
R. J. Anderle	
40. Resource potential of the western North Atlantic Basin	661
William P. Dillon, Frank T. Manheim, Lubomir F. Jansa, Gudmundur Pálmason, Brian E. Tucholke, and Richard S. Landrum	
41. The juridical ocean basin	677
John A. Knauss	
Index	689

Plates

(in accompanying slipcase)

Plate 1.	Decade of North American Geology time scale with biostratigraphic correlations and correlative geologic events in the North Atlantic basin. A. Cenozoic. B. Mesozoic.
Plate 2.	Bathymetry of the North Atlantic Ocean.
Plate 3.	Magnetic anomalies of the North Atlantic Ocean.
Plate 4.	Free-air gravity anomalies of the western North Atlantic Ocean.
Plate 5.	Depth to basement in the western North Atlantic Ocean.
Plate 6.	Sediment thickness in the western North Atlantic Ocean.
Plate 7.	Echo character in the western North Atlantic Ocean.
Plate 8A.	Portrait of a plate boundary: the mid-Atlantic Ridge from the equator to Siberia.
Plate 8B.	Compositional variation of basaltic layer 2A along the MAR axis.
Plate 9.	Reconstructions of the North Atlantic Ocean basin from Late Triassic to Late Cretaceous time.
Plate 10.	Reconstructions of the North Atlantic Ocean basin from Late Cretaceous to Holocene time.
Plate 11.	Seismicity and state of stress of the North Atlantic Ocean basin and adjacent regions.
