

Contents

<i>Preface</i>	xi
<i>Foreword</i>	xiii
1. Introduction	1
E. L. Winterer	
2. Large-scale undersea features of the northeast Pacific	5
Jacqueline Mammerickx	
3. Tectonic maps of the northeast Pacific	15
Tanya Atwater and Jeff Severinghaus	
4. Plate tectonic history of the northeast Pacific and western North America	21
Tanya Atwater	
5. Evolution in plate tectonics; The Juan de Fuca Ridge	73
H. Paul Johnson and Mark L. Holmes	
6. Tectonic and magmatic processes on the East Pacific rise	93
Ken C. Macdonald	
7. Transforms of the eastern central Pacific	111
Paul J. Fox and David G. Gallo	
8. Hydrothermal processes and products on the Galapagos Rift and East Pacific Rise	125
Rachel M. Haymon	
9. Petrology and geochemistry of eastern Pacific spreading centers	145
Rodey Batiza	
10. Propagating rifts and spreading centers	161
R. N. Hey, J. M. Sinton, and F. K. Duennebier	

11. Failed rifts	177
Rodey Batiza	
12. The Hawaiian-Emperor Chain	187
D. A. Clague, G. B. Dalrymple, T. L. Wright, F. W. Klein, R. Y. Koyanagi, R. W. Decker, and D. M. Thomas	
13. Seamounts and seamount chains of the eastern Pacific	289
Rodey Batiza	
14. Sediment thickness map of the Northeast Pacific	307
E. L. Winterer	
15. The late Cenozoic stratigraphic record and hiatuses of the northeast Pacific; Results from the Deep Sea Drilling Project	311
John A. Barron	
16. The pelagic clay province of the North Pacific Ocean	323
Margaret Leinen	
17. Hydrogenous sediment	337
D. Z. Piper and G. R. Heath	
18. Sedimentation and paleoceanography of the central equatorial Pacific	347
F. Theyer, E. Vincent, and L. A. Mayer	
19. Major submarine fans of the California continental rise	373
William R. Normark and Christina E. Gutmacher	
20. Continental margins around the Gulf of Alaska	383
Roland von Huene	
21. Queen Charlotte Islands margin	403
Robin Riddihough and Roy D. Hyndman	
22. Plate tectonic evolution of the Cascades arc-subduction complex	413
Robert A. Duncan and LaVerne D. Kulm	
23. Evolution of the offshore central California margin	439
David S. McCulloch	
24. The California Continental Borderland	471
D. S. Gorsline and L. S.-Y. Teng	
25. Neogene plate-tectonic evolution of the Baja California Sur continental margin and the southern Gulf of California, Mexico	489
Jon E. Spencer and William R. Normark	
26. Geology and tectonic history of the Gulf of California	499
Peter Lonsdale	

27. *The Middle America Trench off southern Mexico* 523
 Joel S. Watkins

28. *The middle America convergent plate boundary, Guatemala* 535
 Roland von Huene

***Index* 551**

Plates

(in accompanying slipcase)

Plate 1A-C. Bathymetry of the Northeast Pacific Ocean
 J. Mammerickx

Plate 2A-C. Surface-sediment composition of the Northeast Pacific
 C. J. Moore

Plate 3A-C. Tectonic map of the Northeast Pacific Ocean
 T. Atwater and J. Severinghaus

Plate 4. Bathymetry of the East Pacific Rise
 K. C. Macdonald

Plate 5. Geologic map of the State of Hawaii
 R. W. Decker

Plate 6. Section across the Middle America convergent margin
 off Guatemala
 R. Von Huene
