|---|-----|
| <i>Preface</i> | v |
| <i>Foreword</i> | vii |
| 1. Introduction | 1 |
| H. C. Riggs and M. G. Wolman | |
| 2. Influence of the atmosphere | 11 |
| Harry F. Lins, F. Kenneth Hare, and Krishan P. Singh | |
| 3. Surface waters of North America; Influence of land and vegetation on streamflow | 55 |
| K. E. Saxton and S. Y. Shiau | |
| 4. Temporal and spatial variability of streamflow | 81 |
| H. C. Riggs and K. D. Harvey | |
| 5. Floods | 97 |
| Howard F. Matthai | |
| 6. Low flows and hydrologic droughts | 121 |
| J. D. Rogers and J. T. Armbruster | |
| 7. Snow and ice | 131 |
| Mark F. Meier | |
| 8. Hydrology of lakes and wetlands | 159 |
| Thomas C. Winter and Ming-Ko Woo | |
| 9. Hydrogeochemistry of rivers and lakes | 189 |
| John D. Hem, Adrian Demayo, and Richard A. Smith | |
| 10. Aquatic biota in North America | 233 |
| R. Patrick and D. D. Williams | |

| | |
|--|------------|
| 11. Movement and storage of sediment in rivers of the United States and Canada | 255 |
| Robert H. Meade, Ted R. Yuzyk, and Terry J. Day | |
| 12. The riverscape | 281 |
| M. Gordon Wolman, Michael Church, Robert Newbury, Michel Lapointe, Marcel Frenette, E. D. Andrews, Thomas E. Lisle, John P. Buchanan, Stanley A. Schumm, and Brien R. Winkley | |
| 13. The influence of man on hydrologic systems | 329 |
| Robert M. Hirsch, John F. Walker, J. C. Day, and Raimo Kallio | |
| Index | 361 |

Plates
(in pocket inside back cover)

- Plate 1. Chemical composition of the surface waters of North America.
 J. D. Hem
- Plate 2. Distribution of the difference between precipitation and
open-water evaporation in North America.
 T. C. Winter
- Plate 3. A. Ranges of mean annual runoff.
 B. Variation of flow regimes.
 H. C. Riggs and K. D. Harvey
