<i>Foreword</i>	v
Brent Ward and Shahin Dashtgard	
1. <i>Urban geology and geoheritage of Metro Vancouver, British Columbia</i>	1
Michael C. Wilson and Lionel E. Jackson Jr.	
2. <i>Applied geomorphology along the North Shore slopes of Burrard Inlet in North and West Vancouver</i>	19
Michael C. Roberts, Derek Turner, and Brent Ward	
3. <i>Mount Baker lahars and debris flows, ancient, modern, and future</i>	33
David S. Tucker, Kevin M. Scott, Eric E. Grossman, and Scott Linneman	
4. <i>Holocene human interaction and adaptation to geological and climatic changes in the Lower Mainland, Fraser Canyon, and Coast Mountain area of British Columbia: A geoarchaeological view</i>	53
Peter Locher and Francesco Berna	
5. <i>Multiple Younger Dryas and Allerød moraines (Sumas Stade) and late Pleistocene Everson glaciomarine drift in the Fraser Lowland</i>	79
Don J. Easterbrook	
6. <i>The life and times of the Cordilleran Ice Sheet around the southern Fraser Plateau, British Columbia</i>	101
Tracy A. Brennand, Olav B. Lian, and Andrew J. Perkins	
7. <i>Quaternary subglacial and explosive volcanism in the Canadian Cascade arc (Sea-to-Sky Corridor), British Columbia</i>	125
Graham D.M. Andrews, Lucy Porritt, and J.K. Russell	
8. <i>Volcanism and glacial interaction in the Wells Gray–Clearwater volcanic field, east-central British Columbia</i>	169
Catherine J. Hickson and Nathalie Vigouroux	
9. <i>Tertiary stratigraphy and structure of the eastern flank of the Cascade Range, Washington</i> ..	193
Eric S. Cheney
