|---|-----|
| 1. Pleistocene megaflood landscapes of the Channeled Scabland | 1 |
| Victor R. Baker, Bruce N. Bjornstad, David R. Gaylord, Gary A. Smith, Scott E. Meyer, Petteri Alho, Roy M. Breckenridge, Mark R. Sweeney, and Marek Zreda | |
| 2. Geologic and anthropogenic history of the Palouse Falls area: Floods, fractures, clastic dikes, and the receding falls | 75 |
| Chad J. Pritchard and Larry Cebula | |
| 3. From land to lake: Basalt and rhyolite volcanism in the western Snake River Plain, Idaho | 93 |
| Bill Bonnicksen, Scott Boroughs, Martha M. Godchaux, and John Wolff | |
| 4. The Columbia River Basalt Group of western Idaho and eastern Washington— Dikes, vents, flows, and tectonics along the eastern margin of the flood basalt province | 127 |
| Stephen P. Reidel, Victor E. Camp, Barton S. Martin, Terry L. Tolan, and John A. Wolff | |
| 5. Geology and geologic history of the Moscow-Pullman basin, Idaho and Washington, from late Grande Ronde to late Saddle Mountains time | 151 |
| John H. Bush, Dean L. Garwood, and Pamela Dunlap | |
| 6. Mesozoic tectonics west of the accretionary boundary in west-central Idaho: A road log along U.S. Highway 95 between Moscow and New Meadows, Idaho | 175 |
| Keegan L. Schmidt, Keith D. Gray, Reed S. Lewis, Cody J. Steven, and Vince H. Isakson | |
| 7. Geology of the Wallowa terrane, Blue Mountains province, in the northern part of Hells Canyon, Idaho, Washington, and Oregon | 211 |
| Tracy L. Vallier, Keegan L. Schmidt, and Todd A. LaMaskin | |
| 8. Metamorphic history of the Belt Supergroup and underlying Paleoproterozoic basement rocks in the western part of the Clearwater complex, Idaho | 251 |
| Julia A. Baldwin, Reed S. Lewis, Jeffrey D. Vervoort, and Clay D. McDonie | |
| 9. Pre-Belt basement tour: Late Archean–Early Proterozoic rocks of the Cougar Gulch area, southern Priest River complex, Idaho | 265 |
| Andrew M. Buddington, Da Wang, and P. Ted Doughty | |
