Library of Congress Cataloging-in-Publication Data

Names: Schmitt, James G. | Geological Society of America.
Title: Geoecology of the Marias River Canyon, Montana, USA : landscape influence on human use and preservation of late Holocene archaeological and vertebrate remains / by James G. Schmitt, Department of Earth Sciences, Montana State University, Bozeman, Montana [and seven others].
Description: Boulder, Colorado : The Geological Society of America, 2017. | Series: Special paper ; 528 | Includes bibliographical references.
Identifiers: LCCN 2017001324 | ISBN 9780813725284 (pbk.)
Subjects: LCSH: Environmental geology--Montana--Marias River Valley. | Geomorphology--Montana--Marias River Valley. | Biodiversity--Montana--Marias River Valley. | Animal diversity--Montana--Marias River Valley. | Geology, Stratigraphic--Holocene. | Paleocology--Holocene. | Paleontology--Holocene. | Marias River Valley (Mont.)
Classification: LCC QE38 .G335 2017 | DDC 557.86/52--dc23
LC record available at <https://lcn.loc.gov/2017001324>

Front Cover: Overview of the Marias River canyon looking downstream, showing the meandering nature of the active channel of the Marias River, the steep walls of the canyon, and landforms and plant communities discussed in this Special Paper. Photo by John W. Fisher Jr.

Back Cover: A group of bison in Yellowstone National Park, Wyoming. Photo by John W. Fisher Jr.

Contents

<i>Abstract</i>	1
<i>Introduction</i>	2
<i>The Marias River Canyon Geoecosystem</i>	3
Geologic Setting	3
Geomorphology of the Marias River Canyon	5
Climatic Setting	7
Flora and Large Vertebrate Fauna	7
Overview of Regional Prehistory	8
Archaeological Site Context	9
<i>Late Holocene Depositional Environments of the Marias River Canyon</i>	10
Marias River Depositional Environment	11
Alluvial-Fan Depositional Environment	15
Hillslope Depositional Environment	17
<i>Archaeological Materials and Geologic Context of the Goose Bill Site Complex (24CH887)</i>	18
Site Description	18
Archaeological Materials and Stratigraphic Context	19
<i>Archaeological and Geological Materials from the Sparrowhawk Site (24CH301)</i>	27
Site Setting	27
Archaeological Materials and Their Context	29
Stratigraphic Context and Age	30
<i>Geoecology: Plant Communities and Ungulate Niches</i>	31
Plant Communities	31
Use of Plants by Native Americans	38
Relations between Depositional Units and Plant Communities	40
Ungulate Niches	42
<i>Geoecological Implications for Archaeology</i>	47
<i>Conclusions</i>	48
<i>Acknowledgments</i>	49
<i>References Cited</i>	50
